# **The Toxicology History Room at NACCT 2011, Washington, DC**

**Displays on the History of Toxicology**

*Following up on successful recent exhibits at meetings of the Society of Toxicology, the International Union of Toxicology, and NACCT in 2010, the Toxicology History Room will be presented once again at the 2011 NACCT in Washington, DC*

We are seeking contributors to create new posters with a focus on clinical toxicology or other areas of interest. If you have participated in a NACCT Toxicological History Society session, consider converting your presentation to a poster. See [www.toxhistoryroom.org](http://www.toxhistoryroom.org) for existing posters. Please contact Phil Wexler at [wexlerp@mail.nih.gov](mailto:wexlerp@mail.nih.gov) with your best ideas and we will send you further details.
